

Medium of Your Choice

Instructor: Tom Andrich

This class is primarily set up to accommodate those people who may have drawing or painting materials at home and want to learn how to use them. This class is open to almost any art materials that are non-toxic. I hope to encourage students to experiment and try different materials also, so other students can see other materials being used.

For example materials may include but not be limited to: a variety of pencils, pen & ink, coloured pencils, acrylics, watercolours, charcoal (and similar drawing materials), oil & chalk pastels, water mixable oils, airbrush, framing & matting, and a combination of any of the above.

Materials List:

- We supply easels, tables, and in some cases paper.
- Due to the variety of materials it is expected that the students bring in their own equipment and supplies. Costs of different materials depend on the media. We may be able to get a discount on some supplies if several students share costs of the equipment they require. The instructor works in all of these media. Some specific tools will be available to borrow from the instructor at the class. If there are any questions you can contact Tom at Eclectic Fine Art at 667-1345.
