

Drawing – Beginners/ Intermediate
Instructor: Lyndsay Ladobruk

Drawing is the foundation of all art.

In this class we will be exploring the basics and more. We start with lessons in perception of objects and mark making. We move from there to the building of shape, shading and texture. This then gives you the tools to start still life, figure and perspective drawing.

I focus a lot of the class on the fun and the freedom art can provide. Every class I bring different books showing a variety of techniques and styles (new and old) - In the hope to inspire and to let all students (new & experienced) know that anything goes in the world of creativity. I encourage this and believe that experimentation is the basic roots of making art.

Materials List:

- various lead pencils (H, HB, B1, B2, B4, B6) – bring what you have & we'll discuss it at the first class
- kneadable eraser
- pencil sharpener
- sketch pad – not much smaller than 12” x 15”
- pad of newsprint paper
- other materials can be added such as charcoal, pastels – discuss with instructor
