

Collage Art – Beginners

Instructor: Lyndsay Ladobruk

Collage gives a person the power to find everyday images and objects and creates a new world of art, creativity and expression out of them. Collage turns the ordinary in to extraordinary.

This class will use different mediums and collage techniques to create stories and worlds of texture. During first 5 classes we will work with 2 dimensional surfaces such as canvas, cards and paper. For the last 5 classes we will move into more 3 dimensional objects with a focus on wearable art and found object art.

The main goal of the class will always be experimentation and fun.

Materials List:

- Paper materials including Images – anything that interests you
- Fastening materials – Mod Podge or gel medium, rivets, nails
- Basic tools - Glue gun with glue sticks & scissors
- Backing/surface – paper, cardboard, canvas, plywood, masonite
