

Digital Documentation of Art \_\_\_\_\_ Facilitator: Lyndsay Ladobruk

Every last Sunday of the month\* Forum Art is giving artists an opportunity to bring in their artwork for digital documentation. **Fee per hour is \$30.**

Forum Art will be developing it's website to place artwork in online galleries to expand the buying audience for artists by having digital copies of their artwork available. The artist will also be able to have a disk made of their work to keep and use for their own needs. This is an important step to increase the visibility & accessibility of your work to the public buyer.

To sign up you need to phone, email or drop into the Forum Art and make an appointment for an available Sunday time slot – assigned as taken. You will be contacted to confirm your date & time. Bring 6 works of art (maximum). Please keep in mind that works that are 3 dimensional or under glass are much more difficult to photograph so it may take more time. If this is the case we would ask you to bring less pieces to photograph. The process of shooting & then editing will be anywhere from a half hour to an hour. You will leave with your art and a disk with the finished edited copies.

Remember you can only bring up to 6 pieces but you can come as many times until all your art work is documented.
